

S4S FINGER JOINT POPLAR

For Professional Contractor And DIY Customers

- **Cost Saving!** S4S Finger Joint Poplar is priced less than solid C & Better Poplar and is not associated with the volatile pine market. It's superior quality results in fewer call backs than Finger Joint Pine or MDF products.
- **Paint Grade Alternative!** When looking for a paint grade product, S4S Finger Joint Poplar is an ideal substitute for solid clear boards. S4S Finger Joint Poplar primes well and looks great.
- **Manufactured with Quality!** Unlike finger jointed pine, S4S Finger Joint Poplar is manufactured from the same hardwood species eliminating different raised grains when primed and painted.
- **Widths, Thickness, and Lengths!** S4S Finger Joint Poplar boards are available in 4/4 and 5/4 thickness in 4", 6", 8", 10", and 12" widths and in 8', 12' and 16' specified lengths.
